### Hospital

[Christus Trinity Mother Frances Hospital-Sulphur Springs](#) completed a \$36 million expansion in the spring of 2010. The expansion created a new, much larger emergency department and all private rooms. A new front entrance, lobby, gift shop and communication area were part of this expansion project. All of the current patient rooms and support areas on the second and third floors were completely remodeled. This expansion included a new emergency department with 22 beds. All patients are treated in their own private room on both second and third floors.

Hospital offers a full range of cardiac services to the citizens of Hopkins County through a partnership with Dr. Jeffrey Gladden of Advanced Heart Care. The cath lab offers diagnostic procedures, interventional cardiac procedures including angioplasty and placement of stents. The cath lab also implants internal pacemakers and defibrillators.

Striving to meet the needs of our community, in 2010 Hopkins County Hospital District created Hopkins County Physician Services, dba CTMF Clinic, a vehicle that allows the employment of physicians and midlevel practitioners. Memorial Clinic provides care by family medicine physicians, physician assistants, nurse practitioners and specialists, including ENT, Internal Medicine, Ob-Gyn, orthopedics, nurse midwife, surgery and urology.

Hospital Mission statement is to provide an exceptional patient experience through quality patient-centered care and a work environment that attracts and retains the best staff, physicians and volunteers. Our vision is to be the leader in Northeast Texas by offering high quality hospital and physician services that meet the healthcare needs of our region and that our patients will recommend to others.
