Healthcare Services

Hopkins County Memorial Hospital

Hopkins County Memorial Hospital is a 100-bed, full service, acute general hospital which serves the 30,000 residents who live within the 800 square miles of Hopkins County, plus residents of neighboring counties. We offer surgery, pathology, radiology, maternity, intensive care, respiratory therapy, physical therapy and emergency services. The hospital offers sophisticated procedures such as computerized tomography (CT), nuclear medicine, magnetic resonance imaging, arthroscopic and laparoscopic procedures. The emergency department is supported by mobile intensive care ambulance service. Specialty clinics offer medical care for gastrointestinal disorders, orthopedic, cardiology, and urology.

The Medical Staff provides expertise in Family Practice, Internal Medicine, Pediatrics, General and Vascular Surgery, and OB/GYN with over 40 physicians on staff.
